WHY ACCOUNTING?

The IIE Postgraduate Diploma in Accounting provides the knowledge and skills required within the fields of Auditing, Financial Accounting, Management Accounting, Financial Management and Taxation, that affords a successful learner admission to the South African Institute of Chartered Accountant's Initial Test of Competence (ITC) examination. The Postgraduate Diploma in Accounting is presented for learners who wish to qualify as Chartered Accountants. The programme is therefore designed to meet the academic requirements of the Competency Framework of the South African Institute of Chartered Accountants (SAICA). This Competency Framework provides the academic programme requirements for entrance to the ITC, the first of two professional exams assessed for the Chartered Accountant qualification.

This qualification is designed to graduate students with the ability to think and act strategically, professionally and ethically and to contribute meaningfully to the Accounting and Business sector. The programme design thus facilitates the development of a well-rounded Chartered Accountant. Graduates have both the theoretical depth and the applied skills relevant to further study or to succeed in the world of work.
